

Training course

It is with great pleasure that we announce the first Milan Arrhythmia Live that will be held on April 6-7, 2017 at Monzino Cardiac Center, University of Milan, Milan in collaboration with the Texas Cardiac Arrhythmia Institute, Austin, Tx, USA. This two full day event of real-time and prerecorded cases has the aim to bring together experienced operators and investigators in the field of Electrophysiology and Cardiac Pacing in a highly interactive environment.

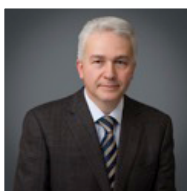

The primary scope of the meeting is to provide attendees a thorough practical experience on the current state of the art of the latest technologies, as well as an opportunity to network with the Faculty members and all colleagues. The format of the event is intended to create an informal and friendly atmosphere where everyone is welcomed to contribute with its own experience in order to allow each of us to learn about advances in research and therapeutics.

We are witnessing a terrific and fast advances in all areas of arrhythmia research and, surely these developments have greatly contributed to impressive progress in our understanding of the pathophysiology of atrial and ventricular arrhythmias and to the developments of more effective diagnostic strategies and safer therapeutic options. Therefore, the meeting can be viewed as an opportunity to shed new light on the main hot topics in our field.

With these premises, we hope you will join us at the meeting and enjoy these two full days of exciting and enlightening program.

LIVE CASE

- Leadless pacemakers era – Micra Implant
C. Tondo, F. Tundo

RECORDED CASE / LECTURE

- Case 1: Nanostim device
M. Moltrasio

DAY 2

8.30 A.M. • 10.45 A.M.

LIVE CASES

Chairmans: A. Natale, C. Tondo

Faculty Panel: F. Marchlinski, J. Kautzner, A. Bereuzo, A. Dello Russo

- Case 10: Epicardial VT Ablation
C. Carbucicchio, M. Casella
- Case 11: Post-MI VT Ablation
P. Della Bella
- Case 12: Brugada syndrome Ablation
C. Pappone

RECORDED CASES

- Case 1: Epicardial VT Ablation (Penn approach)
F. Marchlinski

- Case 2: PVC Ablation (Prague approach)
J. Kautzner
- Case 3: ARVD – VT Ablation (Barcelona approach)
A. Bereuzo

11.00 A.M. • 11.20 A.M.

COFFEE BREAK

11.20 A.M. • 12.40 A.M.

RECORDED CASES

Chairmans: J. Kautzner, F. Marchlinski

Faculty Panel: A. Natale, C. Tondo, A. Dello Russo, L. Di Biase

- Case 1: VT Ablation using Assist Device
A. Bereuzo
- Case 2: PVC from Aortic Cusp
F. Marchlinski
- Case 3: Ethanol VT Ablation. Is it still worthy?
F. Marchlinski

1.00 P.M. • 2.00 P.M.

LIVE CASES
